IT Student | Software Developer | AI & Cybersecurity Enthusiast

PROFILE

Information Technology student and aspiring software developer with hands-on experience building web, mobile, AI-oriented and blockchain-based applications. Interested in software engineering, artificial intelligence, machine learning and cybersecurity, with a focus on creating practical technology solutions.

EDUCATION

Islamic University of Kenya (IUK) — Bachelor's Degree in Information Technology

Currently progressing through the degree programme after completing a Diploma in Information Technology.

Islamic University of Kenya (IUK) — Diploma in Information Technology

Completed 2026.

Kenya Certificate of Secondary Education (KCSE)

Mean Grade: C+

TECHNICAL SKILLS

Programming & Web	PHP, JavaScript/TypeScript, HTML, CSS, React, Vite
Backend & Databases	FastAPI, Node.js, MySQL, PostgreSQL, MongoDB, Redis
Mobile	Android Studio, Java/Kotlin-based Android development, WebView
AI & Data	Artificial Intelligence, Machine Learning concepts, AI-assisted development
Cybersecurity	Cybersecurity fundamentals, secure application concepts, data privacy awareness
Tools & Platforms	GitHub, GitHub Desktop, Docker, XAMPP, VS Code, Vercel
Other	Blockchain, Solidity, Truffle, Ganache, REST APIs

SELECTED PROJECTS

Electricity Bill Management System

- Web-based utility billing prototype with dashboard, bill management, transactions and complaints. Supports KSh payments including Cash, M-Pesa and Bonga Points.

Technologies: PHP • MySQL • XAMPP

FlowWatch-AI

- AI-oriented monitoring platform with a FastAPI backend, modern frontend and containerized supporting services.

Technologies: FastAPI • React/Vite • PostgreSQL • MongoDB • Redis • Docker

IUK Student Helper

- Android application designed to help students access the IUK student portal through a dedicated mobile interface.

Technologies: Android Studio • Java/Kotlin • WebView

Decentralized Voting System

- Blockchain-based voting project demonstrating voter records and decentralized election functionality.

Technologies: Solidity • Truffle • Ganache • Blockchain

CERTIFICATIONS & ACHIEVEMENTS

Portfolio includes a collection of 10 technical certificates and achievement records covering IT-related learning and professional development.

INTERESTS

Software Development • Artificial Intelligence • Machine Learning • Cybersecurity • Web & Mobile Applications • Emerging Technologies
